Cleaner Water Where You Need It Most

Point-of-Use Filtration

BRITA|PRO™

THROUGHOUT YOUR HOME.
THROUGHOUT YOUR LIFE.

Targeted Filtration at Your Faucet

Brita PRO™ single-stage point-of-use (POU) filters provide powerful filtration exactly where you need it most.

Designed to improve taste, reduce odors, and address specific contaminants such as lead and PFAS, these systems deliver cleaner, healthier water directly from your tap.

Easy to install and backed by trusted certifications, Brita PRO™ filters offer reliable performance and peace of mind for your home.

Everyday Filtration

10" CTO POU Filter

IMPROVES TASTE AND ODOR FOR EVERYDAY DRINKING WATER

The Brita PRO™ 10" CTO filter uses high-quality carbon filtration to reduce chlorine taste and odor, helping deliver cleaner, better-tasting water directly from your tap.

It's an ideal solution for homes looking to improve water quality for drinking, cooking, and beverages.

- Reduces chlorine taste and odor
- Improves overall water clarity and flavor
- Simple, dependable point-of-use filtration

Targeted Protection

14" Lead and VOCs POU Filter

ENHANCED PROTECTION FOR SAFER DRINKING WATER

Designed to address one of the most concerning contaminants in drinking water, the Brita PRO™ 14" Lead and VOC filter provides advanced filtration to help reduce lead, VOCs, and other unwanted impurities.

This system delivers reliable protection and peace of mind for you and your family.

- Reduces lead and VOCs in drinking water
- Improves taste and water quality
- Ideal for homes seeking added protection

Advanced Contaminant Reduction

14" PFAS and Pharmaceuticals POU Filter

ADVANCED FILTRATION FOR EMERGING CONTAMINANTS

The Brita PRO™ 14" PFAS filter is designed to target per- and polyfluoroalkyl substances (PFAS), a group of contaminants receiving increased attention in drinking water supplies.

This system provides advanced filtration to help reduce PFAS while improving overall water quality.

- Designed to reduce PFAS and Pharmaceutical contaminants
- Improves taste and odor
- Delivers cleaner, safer drinking water

Advanced Protection for Your Drinking Water

MICROBIOLOGICAL FILTRATION SYSTEM

For homeowners seeking the highest level of point-of-use protection, the Brita PRO™ Microbiological Filter delivers advanced filtration designed to address bacteria, cysts, and other microbiological contaminants that may be present in drinking water. This system provides powerful filtration right at the tap, helping ensure cleaner, safer water for you and your family.

Engineered for performance and reliability, the Brita PRO™ Microbiological Filter combines high-efficiency filtration with simple installation, making it an ideal solution for homes that want greater confidence in their drinking water.

KEY BENEFITS

- Reduces bacteria and cysts in drinking water
- Advanced filtration for enhanced protection
- Improves taste, clarity, and overall water quality
- Reliable point-of-use protection at your faucet

MAXIMUM PROTECTION. CLEANER WATER. GREATER PEACE OF MIND.

IDEAL FOR:

- Homes seeking advanced drinking water protection
- Areas with potable water quality
- Homeowners wanting an extra layer of filtration
