Cleaner Water from Every Tap

Whole-House Filtration

BRITA|PRO™

THROUGHOUT YOUR HOME.
THROUGHOUT YOUR LIFE.

Why Invest in a Brita PRO™ Whole-House Filtration System?

Introducing the Brita PRO™ Whole-House Filter

YOUR FOUNDATION TO CLEANER, HEALTHIER WATER

Imagine enjoying the taste of pure, refreshing water straight from your faucet. With a Brita PRO™ Whole-House Filter, you can experience the difference of cleaner, healthier water throughout your entire home.

EXPERIENCE CLEANER,
HEALTHIER WATER
THROUGHOUT YOUR HOME

Enhanced Taste and Odor
Enjoy fresher, cleaner-tasting water.

Comprehensive Protection
Filter every faucet, shower, and appliance.

Improved Hydration
Encourage healthier drinking habits.

Healthier Cooking
Enhance food and beverage flavors.

Safer Bathing and Showering
Reduce impurity exposure.

Clearer Ice
Enjoy cleaner ice for your drinks.

Easy Installation
Professional installation for a seamless transition.

Eco-Friendly Hydration
Reduce reliance on bottled water.

Protect Appliances
Extend appliance lifespan and reduce maintenance.

Cleaner Laundry
Enjoy softer, cleaner laundry and linens with reduced contaminants.

Understanding Your Filtration Options

EVERY WATER SOURCE IS DIFFERENT,
AND SO ARE THE WHOLE-HOUSE FILTRATION SYSTEMS DESIGNED TO TREAT IT.

Brita PRO™ offers three primary filtration categories - NRV Filters, Backwashing Filters, and Specialty Filters - each with a distinct purpose and performance benefit. This overview explains how each category works and when it's best used, so you can make confident, informed decisions before diving into individual system details.

NRV FILTERS

The Brita PRO™ NRV systems (Non-Regenerating Valve) use a unique technology that doesn't require salt or electricity to regenerate, making it low maintenance and cost effective.

- **Reduced Maintenance**: NRV filters don't require regeneration cycles, which means less maintenance and fewer service calls.
- **Lower Operating Costs**: The lack of regeneration cycles can lead to lower energy consumption and water usage.
- **Consistent Performance**: NRV filters provide consistent water quality without fluctuations.
- **Space-Saving**: These filters often have a smaller footprint compared to traditional regenerating filters.

BACKWASHING FILTERS

Our Brita PRO™ Backwashing Whole-House Water Filter delivers superior filtration, long-lasting performance, and easy maintenance. Enjoy cleaner, healthier water throughout your home while protecting your appliances and the environment.

- **Superior Filtration**: Significantly reduces a wide range of contaminants, including sediment, chlorine, and other harmful substances depending on applicable filter selection.
- **Consistent Performance**: Backwashing ensures continuous filtration without clogging or reduced flow.
- **Long-Lasting**: High-quality components and regular backwashing extend filter life.
- **Easy Maintenance**: Automatic backwashing minimizes manual cleaning and maintenance.
- **Improved Water Quality**: Enhances taste, odor, and overall quality of your water.
- **Health Benefits**: Reduces exposure to harmful contaminants, promoting better health.

SPECIALTY FILTERS

Experience the power of innovation with Brita PRO™'s groundbreaking regenerating nitrate and PFAS whole-house water treatment systems. As the first of their kind, these systems offer unparalleled performance and protection for your family.

- **Unmatched Filtration**: Significantly reduces harmful nitrates and PFAS from your entire home's water supply.
- **Advanced Regeneration Technology**: Our proprietary regeneration process ensures consistent performance and long-lasting results.
- **Superior Water Quality**: Enjoy cleaner, healthier water for drinking, cooking, bathing, and more.
- **Peace of Mind**: Protect your family from potential health risks associated with nitrate and PFAS exposure.
- **Easy Maintenance**: Our systems are designed for minimal maintenance and hassle-free operation.

Engineered for Protection. Independently Verified.

EXCEPTIONAL WATER FILTRATION STARTS WITH THOUGHTFUL DESIGN AND IS PROVEN THROUGH RIGOROUS TESTING.

Brita PRO™ systems combine advanced antimicrobial technology with respected third-party certifications to deliver filtration solutions built for performance, safety, and reliability.

ANTIMICROBIAL TECHNOLOGY

ADVANCED ANTIMICROBIAL TECHNOLOGY

Brita PRO™ filtration systems are designed with antimicrobial technology that helps inhibit bacterial growth within the system. By supporting cleaner internal components, this technology contributes to system durability and helps maintain consistent water quality over time.

IAPMO R&T®

CERTIFIED BY TRUSTED THIRD-PARTY STANDARDS

Brita PRO™ systems are independently tested and certified through IAMPO R&T®, an organization recognized for its rigorous evaluation processes. Certification confirms that Brita PRO™ products meet established industry standards for quality, safety, and performance - providing confidence that each system is built to perform in real-world applications.

THIS COMMITMENT TO INNOVATION AND VERIFICATION REFLECTS BRITA PRO™'S DEDICATION TO DELIVERING FILTRATION SOLUTIONS YOU CAN RELY ON.

Why This Matters?

Helps protect water quality inside the system

Supports long-term system performance

Reduces concerns about internal buildup

Independently verified by third-party standards

Designed for reliability

Quality isn't a Claim IT'S PROVEN

Brita PRO™ NRV Filters

WHOLE-HOUSE SOLUTIONS FOR SCALE REDUCTION, IMPROVED TASTE, AND BALANCED WATER

NRV ANTI-SCALE

Best for
Hard water and scale prevention

Primary Benefit
Reduces hard water scale by virtually eliminating new scale formation at the source.

What It Does
Helps prevent new scale while aiding in the reduction of existing scale buildup in pipes and appliances.

Home Impact
Improves performance and extends the life of water heaters, dishwashers, washing machines, and plumbing fixtures.

Ease & Sustainability
Easy to install, requires no electricity, and uses environmentally friendly, landfill-safe filtration media.

Water Delivery
Efficient distribution ensures near scale-free water reaches every faucet in the home.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standard 42**.

IAPMO R&T · ECO-FRIENDLY HYDRATION

NRV CATALYTIC CARBON

Best for
Taste, odor, and chemical reduction

Primary Benefit
Improves taste and odor by reducing chlorine, chloramine, and other common contaminants.

What It Does
Delivers clean, refreshing water for drinking, cooking, bathing, and showering.

Home Impact
Helps reduce residue buildup so skin, hair, clothes, and dishes feel cleaner and softer.

Ease & Sustainability
Designed for simple installation and maintenance using environmentally friendly, landfill-safe filtration media.

Customized Performance
Tailored to household size and plumbing needs to ensure high-capacity flow and reliable performance.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standards 42**, certified by IAPMO R&T to **NSF/ANSI Standards 61**, certified by IAPMO R&T to **NSF/ANSI Standards 372**.

Cl TARGETED CONTAMINANT — CHLORINE
NH2Cl TARGETED CONTAMINANT — CHLORAMINE
ANTIMICROBIAL TECHNOLOGY · IAPMO R&T · ECO-FRIENDLY HYDRATION

NRV NEUTRALIZER

Best for
Acidic water and corrosion control

Primary Benefit
Raises pH levels to neutralize acidic water and reduce corrosive effects.

What It Does
Helps protect pipes, fixtures, and appliances from damage caused by low-pH water.

Home Impact
Supports longer system life and improved water balance throughout the home.

Ease & Sustainability
Easy to install and maintain, using environmentally friendly, landfill-safe filtration media.

Customized Performance
Customized to household size and plumbing requirements for consistent, high-quality water flow.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standards 42**, certified by IAPMO R&T to **NSF/ANSI Standards 61**, certified by IAPMO R&T to **NSF/ANSI Standards 372**.

ANTIMICROBIAL TECHNOLOGY · IAPMO R&T · ECO-FRIENDLY HYDRATION

Brita PRO™ Backwashing Filters

HIGH-CAPACITY, SELF-CLEANING FILTRATION FOR DEMANDING WATER CONDITIONS

AERATION

Best for
Odors, iron, manganese, and staining

Primary Benefit
Removes hydrogen sulfide (rotten egg odor), iron, manganese, and sediment for cleaner water throughout the home.

What It Does
Filters all household water at the entry point, delivering fresh, odor-free water at every faucet.

Home Impact
Helps eliminate brown stains and unpleasant odors while protecting plumbing fixtures and water-using appliances.

Performance & Operation
Single-tank system with efficient flow rates that maintain consistent household water pressure.

Advanced Technology
State-of-the-art control valve and filtration media provide reliable performance without harmful byproducts.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standard 42**.

IRON · IAPMO R&T · ECO-FRIENDLY HYDRATION

CATALYTIC CARBON

Best for
Taste, odor, and chemical reduction

Primary Benefit
Significantly reduces chlorine, chloramine, and offensive tastes and odors.

What It Does
Delivers fresh, clean-tasting water throughout the home—from drinking and cooking to bathing.

Home Impact
Helps reduce residue buildup so skin, hair, clothes, and dishes feel cleaner and softer.

Ease & Sustainability
Designed for easy installation and maintenance using environmentally friendly, landfill-safe filtration media.

Customized Performance
Tailored to household size and plumbing needs for high-capacity flow and consistent water delivery.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standards 42**, certified by IAPMO R&T to **NSF/ANSI Standards 61**, certified by IAPMO R&T to **NSF/ANSI Standards 372**.

CHLORINE · CHLORAMINE · ANTIMICROBIAL TECHNOLOGY · IAPMO R&T · ECO-FRIENDLY HYDRATION

NEUTRALIZER

Best for
Acidic water and corrosion control

Primary Benefit
Raises pH to neutralize acidic water and reduce corrosive effects.

What It Does
Helps protect pipes, fixtures, and appliances from acid-related damage.

Home Impact
Reduces staining on sinks, bathtubs, and dishes while improving overall water balance.

Ease & Sustainability
Easy to install, operate, and maintain using environmentally friendly, landfill-safe filtration media.

Water Quality Benefits
Balanced, pH-neutral water may improve taste, soap lathering, and overall water feel.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standards 42**, certified by IAPMO R&T to **NSF/ANSI Standards 61**, certified by IAPMO R&T to **NSF/ANSI Standards 372**.

ANTIMICROBIAL TECHNOLOGY · IAPMO R&T · ECO-FRIENDLY HYDRATION

PARTICULATE

Best for
Sediment and suspended solids

Primary Benefit
Removes particulate matter and suspended sediment from all household water.

What It Does
Provides cleaner, clearer water at every faucet for drinking, cooking, and bathing.

Home Impact
Helps keep clothes, dishes, linens, and fixtures looking cleaner and brighter.

Ease & Sustainability
Designed for easy installation and maintenance using environmentally friendly, landfill-safe filtration media.

Customized Performance
Sized to household needs to ensure high-capacity flow and consistent water pressure.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standards 42**, certified by IAPMO R&T to **NSF/ANSI Standards 61**.

IAPMO R&T · ECO-FRIENDLY HYDRATION

Brita PRO™ Specialty Filters

ADVANCED SOLUTIONS FOR TODAY'S TOUGHEST WATER CHALLENGES

Targeted filtration designed to reduce nitrates and PFAS - contaminants linked to agricultural runoff and industrial sources.

NITRATE SPECIALTY FILTER

Best for
Reducing nitrates in household water

Primary Benefit
Dramatically reduces nitrate levels in whole-home water, providing cleaner, healthier water for drinking, cooking, and bathing.

What It Does
Filters all household water at the entry point to reduce nitrates throughout the home - including showers and baths.

Home Impact
Helps reduce impurities that can leave residue on skin, hair, clothes, and dishes, delivering a noticeably cleaner water experience.

Performance & Operation
Breakthrough flow rates with automatic regeneration and bypass features for seamless, reliable operation.

Advanced Technology
Nitrate-selective resin targets nitrates specifically, reducing them without releasing contaminants back into the water, even in the presence of sulfates.

Customized Performance
Tailored to household size and plumbing needs for optimal nitrate reduction and consistent water delivery.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standard ASSE**, certified by IAPMO R&T to **NSF/ANSI Standard LEC2008**, certified by IAPMO R&T to **NSF/ANSI/CAN 372**.

NITRATES · ANTIMICROBIAL TECHNOLOGY · IAPMO R&T · ECO-FRIENDLY HYDRATION

PFAS SPECIALTY FILTER

Best for
Reducing PFAS (forever chemicals)

Primary Benefit
Significantly reduces PFAS throughout the home, delivering cleaner, PFAS-reduced water at every faucet.

What It Does
Treats all incoming water at the entry point for safer water used in drinking, cooking, laundry, and bathing.

Home Impact
Reduces impurities that can leave residue on skin, hair, clothes, and dishes, enhancing overall water quality.

Performance & Operation
Industry-leading flow rates with automatic regeneration for effortless, long-lasting PFAS reduction.

Advanced Technology
PFAS-selective resin targets PFAS compounds specifically, reducing them without releasing contaminants back into the water, even with sulfate interference.

Customized Performance
Customized to household size and plumbing configuration for reliable, high-performance PFAS reduction.

Quality & Certification
Manufactured in an IAPMO-certified facility and certified by IAPMO R&T to **NSF/ANSI Standard ASSE**, certified by IAPMO R&T to **NSF/ANSI Standard LEC2008**, certified by IAPMO R&T to **NSF/ANSI/CAN 372**.
