Softer Water for Your Entire Home

Whole-House Water Softeners

BRITA|PRO™

THROUGHOUT YOUR HOME.
THROUGHOUT YOUR LIFE.

Why Invest in a Brita PRO™ Whole-House Water Softener?

Introducing the Brita PRO™ Whole-House Softener

YOUR FOUNDATION TO A SMOOTHER, MORE EFFICIENT HOME

Imagine luxurious, soft water from every tap.
A Brita PRO™ Whole-House Softener transforms your entire home, offering gentler, more efficient water.

EXPERIENCE THE BENEFITS
THROUGHOUT YOUR HOME

Softer Skin & Hair
Enjoy truly refreshing showers and baths.

Spotless Surfaces
Eliminate hard water spots on dishes and fixtures.

Longer Appliance Life
Protect appliances from damaging mineral buildup.

Brighter Laundry
Clothes look, feel, and last longer with less detergent.

Save Money
Use less soap, shampoo, and save on energy bills.

Seamless Installation
Expert setup by authorized Brita PRO™ partners.

The Science Behind Softer, Better Water

HARD WATER CONTAINS DISSOLVED MINERALS: PRIMARILY CALCIUM AND MAGNESIUM.

While safe to drink, these minerals can cause scale buildup, dry skin and hair, dull laundry, and reduced appliance efficiency. A whole-house water softener removes these minerals through a process called ***ion exchange***.

HOW IT WORKS

1

Hard water enters the system

Water flows into the softener tank filled with thousands of tiny resin beads.

2

Minerals are captured

The resin beads attract and hold onto calcium and magnesium ions (the minerals responsible for hardness).

3

Soft water flows throughout your home

With the hardness minerals removed, softened water moves throughout your plumbing, protecting your home and improving everyday water use.

4

Automatic regeneration

Periodically, the system refreshes the resin using a brine solution, washing away captured minerals and restoring the system's effectiveness.

THE RESULT:

WATER THAT SIMPLY FEELS BETTER

The Platinum Valve:
The Brain Behind Better Water

The Platinum Valve is the intelligent control center behind Brita PRO™ systems - designed to deliver smarter performance, greater efficiency, and total peace of mind.

The Platinum Advantage

Smart Monitoring

Built-in Protection

Self-Optimizing Efficiency

Proactive Alerts

High-Flow Performance

Smarter by Design

SMART MONITORING & CONTROL

- Real-time display shows water usage, flow rate, and system status
- Easy-to-read text (no codes or guesswork)
- Visual indicators show when water is flowing

PROACTIVE ALERTS & SERVICE REMINDERS

- Color-coded status lights keep you informed at a glance
- Built-in service reminders display contact information
- No need to track maintenance manually

BUILT-IN PROTECTION & RELIABILITY

- System memory preserves settings during power outages
- Battery backup keeps performance on track
- Advanced error detection provides clear, actionable alerts

HIGH-EFFICIENCY PERFORMANCE

- Uses treated water for cleaner regeneration
- Optimizes salt and water usage automatically
- Maintains strong water pressure with high-flow design

Proactive Alerts

More than a valve, the Platinum Valve is a self-monitoring, intelligent system designed to deliver consistent performance, long-term reliability, and effortless water management.

Engineered for Protection. Independently Verified.

EXCEPTIONAL WATER FILTRATION STARTS WITH THOUGHTFUL DESIGN AND IS PROVEN THROUGH RIGOROUS TESTING.

Brita PRO™ systems combine advanced antimicrobial technology with respected third-party certifications to deliver filtration solutions built for performance, safety, and reliability.

ANTIMICROBIAL TECHNOLOGY

ADVANCED ANTIMICROBIAL TECHNOLOGY

Brita PRO™ filtration systems are designed with antimicrobial technology that helps inhibit bacterial growth within the system. By supporting cleaner internal components, this technology contributes to system durability and helps maintain consistent water quality over time.

IAPMO R&T

CERTIFIED BY TRUSTED THIRD-PARTY STANDARDS

Brita PRO™ systems are independently tested and certified through IAMPO R&T®, an organization recognized for its rigorous evaluation processes. Certification confirms that Brita PRO™ products meet established industry standards for quality, safety, and performance - providing confidence that each system is built to perform in real-world applications.

THIS COMMITMENT TO INNOVATION AND VERIFICATION REFLECTS BRITA PRO™S DEDICATION TO DELIVERING FILTRATION SOLUTIONS YOU CAN RELY ON.

Why This Matters?

Helps protect water quality inside the system

Supports long-term system performance

Reduces concerns about internal buildup

Independently verified by third-party standards

Designed for reliability

Quality isn't a Claim IT'S PROVEN

Compare the Platinum Softener Lineup

FIND THE RIGHT BALANCE OF SOFTENING, FILTRATION, AND EFFICIENCY FOR YOUR HOUSEHOLD.

PLATINUM SOFTENER

Best For
Everyday hard water protection and efficiency

What It Reduces
Hard water minerals (calcium & magnesium)

Smart Efficiency Technology
- Advanced programmable valve learns water usage
- Metered regeneration optimizes performance
- Up to 98% water usage efficiency

Performance & Convenience
- Pre-fill brining prevents salt bridging
- High-capacity flow for whole-home use
- Customized to your household

Sustainability Benefits
Uses less salt and water than traditional systems

Quality & Certification
- Manufactured in an IAPMO-certified facility
- Certified by IAPMO R&T to **NSF/ANSI Standard 44**
- Certified by IAPMO R&T to **NSF/ANSI Standard 372**.

ANTIMICROBIAL TECHNOLOGY

SOFTENER + CARBON MID-PLATE

Best For
Homes with chlorine/chloramines and hard water

What It Reduces
- Hard water minerals
- Chlorine
- Chloramines

Smart Efficiency Technology
- Smart programmable valve adjusts to usage
- Metered regeneration reduces salt & water use

Performance & Convenience
- Removes chlorine taste & odor
- Maintains settings during power outages
- Customized system sizing

Sustainability Benefits
Metered regeneration reduces salt & water waste

Quality & Certification
- Manufactured in an IAPMO-certified facility
- Certified by IAPMO R&T to **NSF/ANSI Standard 42**
- Certified by IAPMO R&T to **NSF/ANSI Standard 44**
- Certified by IAPMO R&T to **NSF/ANSI Standard 61**
- Certified by IAPMO R&T to **NSF/ANSI Standard 372**.

CHLORINE · CHLORAMINE · ECO-FRIENDLY HYDRATION

ANTIMICROBIAL TECHNOLOGY

Ideal for Well Water

SOFTENER + IRON

Best For
Homes with iron, staining and hardness buildup

What It Reduces
- Hard water minerals
- Iron up to 10 ppm (ferrous & ferric)

Smart Efficiency Technology
- Metered + hybrid regeneration technology
- Maximizes water quality while reducing waste

Performance & Convenience
- Eliminates staining
- High-capacity flow for whole-home use
- Customized system sizing

Sustainability Benefits
Reduces environmental impact with smarter regeneration

Quality & Certification
- Manufactured in an IAPMO-certified facility
- Certified by IAPMO R&T to **NSF/ANSI Standard 42**
- Certified by IAPMO R&T to **NSF/ANSI Standard 44**
- Certified by IAPMO R&T to **NSF/ANSI Standard 61**
- Certified by IAPMO R&T to **NSF/ANSI Standard 372**.

ANTIMICROBIAL TECHNOLOGY · IRON

Softening + Filtration. Reimagined.

THE ULTIMATE SOFT WATER UPGRADE

The Brita PRO™ Softener + CTO Mid-Plate system combines two powerful water treatments in one advanced tank. Patented Vortech technology improves efficiency, reduces salt and water usage, and delivers soft, great-tasting water throughout your home.

Two Technologies. One Powerful System.

Softens water while reducing chlorine and chloramines simultaneously at the point of entry - delivering softer, cleaner water to every faucet in your home.

MID-PLATE DIVIDER

Keeps carbon and softening resin separated for optimal performance

TOP CHAMBER
Carbon Filtration

Removes chlorine, taste & odor before water reaches the softener media

Vortech Bottom
Distributor Plate

Improves water flow and eliminates heavy gravel underbedding

BOTTOM CHAMBER
High-Capacity Resin

Softens water by removing hard minerals like calcium and magnesium

CHLORINE CHLORAMINE

Better Taste. Better Feel.

Catalytic carbon filtration reduces chlorine and chloramines to improve taste, reduce odor, and deliver clearer, better-feeling water throughout your home.

ANTIMICROBIAL TECHNOLOGY

Built-In Antimicrobial Protection

Features antimicrobial product protection that helps prevent the growth of odor-causing bacteria on key system components, helping your filtration and softening system stay cleaner between maintenance cycles.

ECO-FRIENDLY HYDRATION

Eco-Friendly by Design

One regeneration cycle cleans both the softener and the filter, reducing wastewater compared to separate systems. Fully adjustable regeneration minimizes salt and water use, helping lower utility costs and environmental impact.

IAPMO R&T

Certifications

Manufactured in an IAPMO-certified facility.
Certified by IAPMO R&T to **NSF/ANSI Standards 42**
Certified by IAPMO R&T to **NSF/ANSI Standards 44**
Certified by IAPMO R&T to **NSF/ANSI Standards 61**
Certified by IAPMO R&T to **NSF/ANSI Standards 372**
